(d) if so, the details of oil and gas reserves deposited in the Mahanadi basin and other parts of Orissa, location-wise?

THE MINISTER OF STATE IN THE MINISTRY OF PETROLEUM AND NATURAL GAS AND MINISTER OF STATE IN THE MINISTRY OF PARLIAMENTARY AFFAIRS (SHRI SANTOSH GANGWAR): (a) and (b) Considerable amount of exploratory works in Mahanadi basin, which lies partly in the State of Orissa and partly offshore, has been undertaken since 1970s by Oil India Limited (OIL) and Oil and Natural Gas Corporation Ltd. In the last two years, through New Exploration Licensing Policy (NELP), the Government of India has signed Production Sharing Contracts (PSCs) for six blocks in Mahanadi basin, both offshore and onland, with various Public Sector and Private Sector companies. This includes one onland exploration block in the State of Orissa, the PSC for which was signed in July, 2001 with the consortium of OIL, ONGC, Gas Authority of India Ltd. (GAIL) and Indian Oil Corporation Ltd. (IOC).

(c) Oil India Ltd. (OIL) has collected about 14,250 Line Kilometer (LK) of ZD survey data, 3343 LK of 3D seismic data, 1575 LK of Deep Seismic Sounding data, Aero-magnetic & Gravity magnetic surveys, and 4980 LK geochemical survey and also drilled 4 wells in onland areas, and 11 wells in offshore areas, including North-East coast basin.

(d) No hydrocarbon reserves have been established so far in Mahanadi basin and in the State of Orissa.
